

Curriculum vitae
Matthew James Mimiaga, ScD, MPH

DATE UPDATED: August 2016

Office Address	Brown University, School of Public Health Institute for Community Health Promotion 121 South Main Street, 8 th Floor Providence, RI 02912 Phone 401-863-6559; Fax: 401-863-5940 Email: matthew_mimiaga@brown.edu			
Present Position	Professor of Behavioral & Social Health Sciences and Epidemiology, School of Public Health Professor of Psychiatry & Human Behavior, Alpert Medical School Director, Institute for Community Health Promotion			
Place of Birth	Los Angeles, CA			
Education	2001	B.S.	Psychology and Biological Sciences	California Polytechnic State University, San Luis Obispo, CA
	2003	M.P.H.	Dual Concentration: Epidemiology/Biostatistics and Behavioral Sciences	Boston University, School of Public Health, Boston, MA
	2007	Sc.D.	<u>Major Field:</u> Psychiatric Epidemiology <u>Minors:</u> Infectious Disease Epidemiology and Biostatistics	Harvard School of Public Health, Boston, MA
Pre-Doctoral Training	09/1999-08/2000	Post-Baccalaureate Research Training Internship	HIV/AIDS Research	UCSF Center for AIDS Prevention Studies (CAPS) / Alliance Health Project (AHP), San Francisco, CA
Post-Doctoral Training	05/2007-04/2008	Post-Doctoral Fellowship	Behavioral Medicine (Primary Mentors: Steven A. Safren, PhD Kenneth H. Mayer, MD)	Harvard Medical School, Behavioral Medicine, Department of Psychiatry, Boston, MA

Faculty Academic Appointments

2007-2008	Post-Doctoral Fellow	Harvard Medical School
2008-2010	Instructor in Psychiatry	Harvard Medical School
2008-2010	Instructor in Epidemiology	Harvard School of Public Health
2010-2014	Assistant Professor of Psychiatry	Harvard Medical School
2010-2014	Assistant Professor of Epidemiology	Harvard School of Public Health
2014-2015	Associate Professor of Psychiatry	Harvard Medical School
2014-2015	Associate Professor of Epidemiology	Harvard School of Public Health
2015-present	Adjunct Professor of Epidemiology	Harvard School of Public Health
2015-present	Professor of Epidemiology (tenured)	Brown University
2015-present	Professor of Behavioral & Social Sciences (tenured)	Brown University
2015-present	Professor of Psychiatry & Human Behavior (tenured)	Brown University

Hospital or Affiliated Institution Appointments

2001-present	Research Associate (2001) Senior Research Associate (2002-2003) Epidemiology Projects Manager (2004-2006) Director of Epidemiology and Global Health Research (2007-present)	The Fenway Institute, Fenway Health (BIDMC/Harvard Medical School affiliate)
2007-2008	Fellow in Behavioral Medicine, Department of Psychiatry	Massachusetts General Hospital
2008-2010	Assistant faculty in Research	Massachusetts General Hospital
2010-2015	Associate faculty in Research	Massachusetts General Hospital
2015-present	Director, Institute for Community Health Promotion	Brown University, School of Public Health

Other Professional / Volunteer Positions

1996-1998	Program Coordinator	AIDS Support Network (Gay, Lesbian, Bisexual and Transgender - Health Awareness Program), San Luis Obispo, CA
1997-1998	Student Body President	College of Science and Mathematics, California Polytechnic State University. Elected to the office through student-run elections; presided over a student body of 3,000 and a 15 member committee, San Luis Obispo, CA
1998-1999	Staff Coordinator	United Way / Friends Outside, San Luis Obispo, CA
1999-2000	Substance Abuse Residential Treatment Counselor	Walden House, San Francisco, CA
1998-2000	HIV Support Group Facilitator	UCSF/CAPS, San Francisco, CA
1999-2000	HIV Counseling and Testing Volunteer	UCSF/CAPS/AIDS Health Project, San Francisco, CA
2000-2001	HIV Counseling and Testing Volunteer	Department of Public Health, San Luis Obispo, CA
2007-2011	Director of Research and Grants, Board of Directors	Hope Web Design, Denver, CO
2012-present	Director of Health Services and Research, Board of Directors	Project Weber, Providence, RI
2014-present	Alumni Volunteer	Harvard International Alumni Ambassador program, Boston, MA

Major Academic Administrative Leadership Positions and Committee Service

Local

2007-present	Director of Epidemiology and Global Health Research	The Fenway Institute, Fenway Health
2007-2015	Interdisciplinary Research Committee	Harvard Medical School, Department of Psychiatry
2008-2015	Member of Outcomes Research Program	Harvard Division of AIDS / Partners AIDS Research Center / Center for AIDS Research
2008-2015	Member of International AIDS Program	Harvard Division of AIDS / Partners AIDS Research Center / Center for AIDS Research
2008-2015	Faculty Search Committee	Harvard Medical School, Behavioral Medicine, Department of Psychiatry
2008-2015	Behavioral Medicine and Adult Cognitive Behavioral Therapy Clinical Internship in Psychology Seminar Series Committee	Harvard Medical School, Behavioral Medicine, Department of Psychiatry
2009-2015	Psychiatry Department Research Committee	Massachusetts General Hospital
2010-2015	Admissions Review Committee (annual)	Harvard School of Public Health, Department of Epidemiology
2011-2015	Scientific Committee for Epidemiology Research Training Series / Seminars	Harvard School of Public Health, Department of Epidemiology
2012-2015	Faculty Search Committee	Harvard School of Public Health, Department of Epidemiology
2012-2015	Psychiatry Steering Committee	Massachusetts General Hospital
2013-2015	Social and Behavioral Sciences Leadership Core	Harvard Center for AIDS Research
2014-2015	Harvard Appointments and Promotions Committee	Harvard Medical School, Department of Psychiatry

2015- present	Behavioral and Social Health Sciences Executive Committee	Brown University
2015- present	Admissions Review Committee (annual)	Brown University
2015- present	School of Public Health Curriculum Council	Brown University
2016	CFAR Executive Committee	Lifespan/Tufts/Brown Center for AIDS Research
2016	School of Public Health Research Day Abstract Reviewer	Brown University
2016	School of Public Health Research Day Abstract Judge	Brown University
2016-2017	Faculty Search Committee	Brown University School of Public Health, Department of Behavioral and Social Health Sciences
<u>National</u>		
2005, 2007, 2009	Abstract Review Committee	CDC National STD Prevention Conference
2006, 2008	Abstract Review Committee	CDC National HIV Prevention Conference
2006-2008	Conference Program Committee	CDC National HIV Prevention Conference
2006-present	Committee Member	Behavioral Science Working Group (BSWG), HIV Prevention Trials Network (HPTN)
2007-present	Committee Member	HANC: HIV/AIDS Network (NIH funded HIV networks: HPTN, ACTG, HVTN, IMPACT, INSIGHT, MTN) Coordination – Behavioral Science Working Group
2007-2011	Board of Directors, Founding Member	Hope Web Design (501c3), CO
2007-present	Scientific Advisory Committee	amfAR, Foundation for AIDS Research, NY

2010	Think-Tank Member	National Institute of Mental Health, Office of AIDS Research, Social and Behavioral Research Think Tank
2008, 2009, 2010, 2011, 2012, 2013	Abstract Reviewer for Conference Abstract Review Committee	Society of Behavioral Medicine Annual Conference
2010, 2011, 2012, 2013, 2014	Abstract Reviewer for Conference; HIV/AIDS Section Committee; LGBT Section Committee	American Public Health Association Annual Scientific Meeting
2012-present	Data Safety Monitoring Board (DSMB) Membership	Multicomponent intervention to reduce sexual risk and substance use among transgender women; PI: Jeff Parsons, PhD Grant number: R01DA034661-03
2013, 2014	Abstract Reviewer for Conference	International Association of Providers in AIDS Care (IAPAC) / National Institutional of Mental Health (NIMH) International Conference on HIV Prevention and Treatment Adherence
2012-present	Board of Directors, Founding Member	Project Weber (501c3), RI (http://www.projectweber.org)
<u>International</u>		
2010-present	Scientific Advisory Committee	Humsafar Trust, Mumbai, India
2008, 2010, 2012, 2014, 2016	Abstract Reviewer for Conference; Invitation: Rapporteur for Track C: <i>Epidemiology and Prevention Research</i>	International AIDS Conference (IAS) bi-annual World AIDS conference
2011-present	Scientific Advisory Committee	Sahodaran, Chennai, India
2013-present	Senior Advisory Council	CDC-Vietnam, Ho Chi Minh City, Vietnam
2013, 2014	Research Advisory Board	The Thai Red Cross AIDS Research Center, Bangkok, Thailand

2015	Abstract Review Committee	8th International AIDS Conference (IAS) on HIV Pathogenesis, Treatment
------	---------------------------	--

Professional Societies

1999-2001	Member	Psi Chi, The National Honor Society in Psychology
2001-2004	Member	Association for the Advancement of Behavior Therapy (now called: Association for Behavioral and Cognitive Therapies)
2001-present	Member	American Psychological Association
2001-present	Member; Scientific review committee; HIV/AIDS section committee; LGBT section committee	American Public Health Association
2002-present	Member; Scientific review committee	Society of Behavioral Medicine
2002-present	Member; Scientific review committee	International AIDS Society
2011-present	Member; Scientific review committee	IAPAC, International Association for Providers in AIDS Care
2015	Co-chair (with Don Desjarlais), conference session: "Drugs and HIV"	AIDSIMPACT 12 th International Conference, Amsterdam, Netherlands

Scientific Review Activities and NIH Committees

2007, 2008, 2009	Reviewer, Scientific Review Committee	amfAR, Foundation for AIDS Research
2010, 2011, 2012, 2013, 2014	Reviewer, University of California Scientific Review Committee	California HIV/AIDS Research Program (CHRP)
2010	Outside Behavioral Science Reviewer	Brown/Tufts/Lifespan Center for AIDS Research, Developmental Core

2010, 2011, 2012, 2013, 2014, 2015	Reviewer, Scholar and Feasibility Projects	Harvard Center for AIDS Research (CFAR)
2011, 2012 2012, 2013, 2014, 2015, → *until 2019	Ad Hoc Reviewer <u>Standing Member*</u>	NIH, Behavioral and Social Consequences of HIV/AIDS (BSCH); NIH, Center for Scientific Review
2012	Reviewer, Harvard Catalyst Pilot Grants	The Harvard Clinical and Translational Science Center
2013, 2014, 2015	Reviewer, ZRG1 AARR-G	NIH, HIV/AIDS-related Career Development Award Applications
2013, 2014	Reviewer, HSPH-PDA-KOU Travel Awards	The Harvard Postdoc Association Travel Award Program
2014, 2015	Reviewer, ZDA1 NXR-B	NIDA, Conflict Special Emphasis Panel, Center of Excellence Grant Program (P30)
2013, 2014, 2015 (reappointed)	Standing Member	Office of AIDS Research (OAR), NIH, HIV/AIDS Racial and Ethnic Populations Research Priority Committee
2015	Reviewer	Health Research Board (HRB), Dublin, Ireland Health Research Grant Awards Program (http://www.hrb.ie/home/)
2015	Reviewer, ZDA1 NXR-B (09) R	NIH RFA, Seek, Test, Treat and Retain For Youth and Young Adults Living with or at High Risk for Acquiring HIV (R01)
2015	Reviewer, ZRG1 AARR-G (92) S	NIH RFA, Seek, Test, Treat and Retain For Special Topics in HIV/AIDS Behavioral Research
2015	Reviewer	NIH RFA, Research Partnerships for Scaling Up Mental Health Interventions in Low-and Middle- Income Countries (U19)

2015	Reviewer, ZMH1 ERB-K 03 R	NIMH, Special Emphasis Panel, Global Mental Health (U19)
2015	Meeting Chair	NIH/SBIR RFA review: Innovative Development/Use of Technology to Increase HIV Testing and Linkage to Care Efforts in Adolescent Populations (R43/R44) (RFA-HD-16-029) and NIH /STTR RFA review: Innovative Development/Use of Technology to Increase HIV Testing and Linkage to Care Efforts in Adolescent Populations (R41/R42) (RFA-HD-16-030)
2015	Reviewer	Lifespan/Tufts/Brown CFAR- Boston University Medical Center Collaborative Development RFA proposals
2016	Reviewer	NIH/NICHD Loan Repayment Project Award Applications (www.lrp.nih.gov)
2016	Reviewer	Brown University Salomon Research Grant proposals
2016	Reviewer, NCIPC RFA-CE16-005	CDC RFA, Evaluating Practice- based Sexual Violence Primary Prevention Approaches, CDC Rape Prevention and Education Program

Report of Clinical Activities and Innovations

1999-2003	HIV pre- and post-test counseling and testing	California State Certification
1999-2003	ORASURE HIV testing	California State Certification
1999-2000	Group facilitation	UCSF/CAPS
2001-present	HIV pre- and post-test counseling and testing	Massachusetts State Certification

2002-present	Phlebotomy	Massachusetts State Certification
2006-present	Rapid HIV testing	Massachusetts State Certification

Awards and Honors**Academic / Mentoring Awards**

1997, 1998, 1999, 2000, 2001	Dean's List	California Polytechnic State University, San Luis Obispo
2001	President's Award (five recipients per year, awarded for outstanding scholastic merit and community service)	California Polytechnic State University, San Luis Obispo
2001	President's Community Service Award	California Polytechnic State University, San Luis Obispo
2001	Honors, Undergraduate Thesis, <i>Health Status Report</i> 2000. Published by the Department of Public Health, San Luis Obispo, CA	California Polytechnic State University, San Luis Obispo
Academic years: 2001-2002 2002-2003	Community Scholars Fellowship Award (half tuition stipend)	Boston University School of Public Health
Academic years: 2001-2002 2002-2003	Dean's Scholarship Award (half tuition stipend)	Boston University School of Public Health
Academic years: 2004-2005 2005-2006 2006-2007	Harvard Presidential Scholarship Award (full tuition scholarship and stipend for 5 academic calendar years; completed doctoral degree in 2.5 years)	Harvard University
2013	Outstanding Postdoctoral Mentor Award	Harvard School of Public Health
2014	Excellence in Mentoring Award	The Fenway Institute, Fenway Health
<u>Research Awards</u>		
2009, 2010, 2011, 2012, 2013, 2014, 2015	Clinical LRP Award	National Institutes of Health (NIH) Clinical Loan Repayment Program (LRP), Division of Loan Repayment
	National Institute on Drug Abuse (NIDA): 2009-2011 (original award); Renewal: 2012, 2013	
	National Center for Advancing Translational Sciences (NCATS); Renewal: 2014, 2015	

2010	Outstanding Investigator in HIV/AIDS Research (one recipient per year)	University of Miami, Miller School of Medicine, Center for AIDS Research (CFAR)
2015	Faculty Travel Award	Faculty Research Travel Fund, Brown University, Office of Faculty Governance

National Institutes of Health (NIH)
Centers for Disease Control and Prevention (CDC)
United States Agency for International Development (USAID)
amfAR, The Foundation for AIDS Research
Bill and Melinda Gates Foundation

Invited Consultations and Trainings

2006	National Institute on Drug Abuse (NIDA) First Research Training Institute. Applications were selected for invitation via a competitive review process, Bethesda, Maryland
2007	Invited Center for AIDS Research (CFAR) Social and Behavioral Sciences Research Network (SBSRN) 1 ST National Scientific Meeting and Training for New Investigators, Co-sponsored by the NIH Office of AIDS Research, Philadelphia, Pennsylvania
2009	National Institute on Drug Abuse (NIDA) invited consultation on recruiting and retaining high risk, substance dependent MSM in ongoing intervention trials, Washington, DC
2009	Centers for Disease Control and Prevention (CDC) invited consultation on HIV prevention messaging for MSM, Atlanta, Georgia
2010	United States Agency for International Development (USAID) invited consultation on prevention of HIV transmission among MARPs research and policy implications at Clinica Condesa and Colmex, Mexico City, Mexico
2010	Centers for Disease Control and Prevention (CDC) invited consultation on promoting sexual health through a public health approach, Atlanta, Georgia
2010	The Forum for Collaborative HIV Research (NIH) invited consultation on municipal scale-up of HIV testing in the US, Washington, DC
2011	National Institute of Mental Health (NIMH) invited MSM HIV/AIDS Prevention invited consultation, Bethesda, Maryland

2011	Joint National Institutes of Health (NIH) / Indian Council of Medical Research (ICMR), Indo/US working group invited consultation, main NIH campus, Bethesda, Maryland
2012	Centers for Disease Control and Prevention (CDC) invited consultation on HIV prevention for MSM, Atlanta, Georgia
2012	Centers for Disease Control and Prevention (CDC) invited consultation on STD prevention, Atlanta, Georgia
2012	amfAR, The Foundation for AIDS Research, MSM Initiative [now called the “Gay men, other men who have sex with men, and transgender individuals initiative” (collectively, GMT)], invited working group consultation on innovative approaches to HIV prevention among MSM, Washington, DC
2013	Centers for Disease Control and Prevention (CDC) invited consultation on biomedical prevention (e.g., PrEP, ARVs for treatment) messaging for MSM, Atlanta, Georgia
2013	amfAR, The Foundation for AIDS Research, Treat ASIA, invited consultation on HIV prevention for MSM and transgender women, Bangkok, Thailand
2014	Joint John Snow, Inc., and Centers for Disease Control and Prevention (CDC) invited “Think Tank” meeting on using technology (mobile phones, SMS texts, internet, etc.) to deliver HIV behavioral and biomedical prevention modalities (e.g., PrEP, initiation of ART for HIV treatment, adherence, serosorting, etc.) messaging for MSM, Boston, MA
2016	Bill and Melinda Gates Foundation invited consultation on lessons from the effectiveness and impact of HIV behavior change interventions in the U.S., Europe and developing world, Washington, DC

Research Program and Extramural Funding

MY PROGRAM of RESEARCH involves conducting longitudinal epidemiological investigations, mixed-methods (qualitative/quantitative) research, and developing and testing both behavioral and biomedical intervention trials in three primary areas:

- 1) HIV primary and secondary prevention (both epidemiology of, and developing and testing behavioral interventions), including PrEP (once-daily oral pill—emtricitabine/tenofovir—as pre-exposure prophylaxis for the prevention of HIV in uninfected individuals), nPEP (non-occupational post-exposure prophylaxis for sexual or injection drug exposure), and antiretroviral therapy (ART) demonstration and medication adherence intervention trials, as well as HIV prevention in the context of co-morbid mental health conditions.
- 2) Substance abuse prevention and treatment development studies for crystal methamphetamine and other stimulant (cocaine, crack) dependence in the context of concurrent HIV sexual risk behavior and/or suboptimal HIV related primary care.
- 3) Global public health research that universally takes place in settings for which very little, if any, work has been done with respect to HIV prevention, treatment for substance dependence, and addressing

intertwined psychosocial syndemic conditions (e.g., depression, victimization, etc.) that potentiates HIV risk behaviors and infection.

My federally funded studies involve a variety of populations, including sexual and gender minorities (LGBT individuals) and other key populations and marginalized groups, including adolescents, injection drug users, MSM, heterosexual men and women, individuals who engage in transactional sex, transgender women, substance users, and individuals in resource limited settings globally.

In addition to my domestic research program, I have ongoing global public health research studies across multiple continents focused on HIV primary and secondary prevention. **These countries include:**

Picture courtesy of Rose Closson, former/current mentee and PhD candidate at the London School of Hygiene and Tropical Medicine, University of London.

My research in the area of HIV prevention is internationally known through my success in NIH funding for my R-level grants, as well as my participation in the National Institute of Allergy and Infectious Disease (NIAID) funded biomedical clinical trials networks (mentioned above under examples of recognition): the HIV Prevention Trials Network (HPTN), HIV Vaccine Trials Network (HVTN), and Center for AIDS Research Network of Integrated Clinical Systems (CNICS).

Extramural Funding

- **I have been the PI/MPI of 22 federal and other foundation research grants** awarded by the National Institutes of Health, Centers for Disease Control and Prevention and other foundations. These awards are detailed below.
- These include: Ten NIH R grants (three R01s, four R21s, two R34s, one R03); an NIH Competitive Supplement to my R01; two Harvard Center for AIDS Research / NIH grants; a Harvard Catalyst / NIH grant; two CDC research grants; and a grant funded by the Ragon Institute of MGH, MIT, and Harvard (NIH supported).
- I am also a Co-Investigator on several NIH R grants and Co-Investigator/Protocol Member of numerous multisite, large-scale network (HPTN, HVTN, and CNICS) funded studies where I contribute substantially as an expert in the areas of epidemiology (design/methods contributions), behavioral science, substance abuse treatment, HIV prevention, global health, as well as research scholarship.

Current Funded Grants as PI (Total Award Amount Provided)

2015-2017	Role: PI (MPI: Grelotti)	National Institute on Drug Abuse (R21DA039857-01)	\$376,989
Epidemiology of HIV antiretroviral exposure from whoonga use in South Africa			
<p>Some people are exposed to HIV antiretroviral medication through recreational use. This emerging phenomenon poses a significant obstacle to efforts to address the global HIV pandemic. Any antiretroviral exposure from recreational use may increase rates of antiretroviral-resistant HIV strains. This and any diversion of antiretroviral medication for recreational use will increase the cost of delivering this life-saving care. The proposed research will document antiretroviral exposure from the use of whoonga, a drug cocktail in South Africa that may contain antiretroviral medication and illicit drugs. It will also inform future research to link recreational antiretroviral use to antiretroviral resistance among HIV-infected individuals who have yet to initiate HIV treatment, as well as promote the design of culturally appropriate interventions.</p>			
2014-2019	Role: PI (MPI: Safren)	National Institute of Mental Health (R01MH100627-01A1)	\$2,907,259
Fostering resilience to psychosocial and HIV risk in Indian MSM			
<p>This study is testing the efficacy of the self-acceptance-based intervention in comparison to HIV / VCT on co-primary outcomes: STI incidence and reduced episodes of unprotected anal sex among HIV-infected and uninfected MSM in Chennai and Mumbai India. The incremental cost-effectiveness of the intervention and HIV/STI VCT relative to HIV/STI VCT alone is being assessed, considering individual and public health benefits as well as downstream cost-savings due to HIV infections averted.</p>			
2014-2017	Role: PI (MPI: Clark / Reisner)	National Institute of Mental Health (R34MH104072-01)	\$672,360
TransPrEP: Social network-based PrEP adherence for transgender women in Peru			
<p>This research is to develop a social network-based intervention to promote PrEP adherence among PrEP naïve transgender women at risk for HIV infection in Lima, Peru. Once the intervention is developed through multiple forms of qualitative methods, an RCT pilot will be conducted randomizing by social network-based clusters of transgender women. All participants will be provided with daily Truvada for the study period. The intervention includes a mix of individual counseling, group (peer) based workshops, and social network interactions.</p>			

2011-2016	Role: PI (MPI: Garofalo)	National Institute of Mental Health (R01MH094323-02)	\$4,530,580
HIV prevention intervention for young transgender women			
<p>The purpose of this study is to test the efficacy of a uniquely targeted HIV risk reduction intervention for young transgender women (YTW), ages 16 to 24, at risk for HIV acquisition or transmission. We will enroll 375 at risk YTW, ages 16-24; two-fifths of the sample (N=150) randomized to the intervention will participate in the 6-session group-based and manualized Life Skills intervention; two-fifths (N=150) will be randomized to the standard-of-care condition; and one-fifth will be randomized to the time-matched attention control condition (N=75) and receive standard health promotion information in a group-based multi-session format.</p> <p>***Competitive supplement, 2014-2015, NIMH, \$100,000 (included above in total costs)</p> <p>This supplement is to adapt the Life Skills intervention to transgender MSM.</p>			

2013-2018	Role: PI (MPI: Stephenson / Garofalo)	National Institute of Child Health and Human Development (R01HD075655-01A1)	\$3,012,674
CVCTPlus: A Couples-based approach to linkage to care and ARV adherence			
<p>Studies suggest that the majority of incident HIV infections among MSM are attributable to sex with a main male sex partner; however, HIV prevention interventions that target male-male couples are lacking. As adherence to ART is modifiable, and levels of peer support have been shown to increase ART adherence, this current study proposes to use CVCT combined with dyadic adherence counseling (“CVCTPlus”) to improve linkage to care, retention in care, ART adherence and viral suppression among 250 (total n = 500) HIV serodiscordant male-male couples across Atlanta, Boston, and Chicago. Each couple (125 per arm) will be followed for 48 months, with study visits every six months.</p>			

2013-2016	Role: PI (MPI: Biello)	National Institute on Drug Abuse (R21DA035113- 01A1)	\$465,300
HIV risk for MSM sex workers: A social, sexual and drug network simulation study			
<p>This is a longitudinal epidemiological study of MSM sex worker networks in Massachusetts to identify protective and risk factors that affect HIV transmission dynamics. Longitudinal data will enhance our understanding of how contemporary social, sexual, and drug abuse network characteristics contribute to increased HIV and STI spread among MSM sex workers. The information gained will be used to develop a simulation model to examine which prevention modality (e.g., PrEP, etc.) would impact decreased HIV incidence most successfully.</p>			

2016-2017	Role: PI	Brown University, OVPR Research Seed Fund Award	\$50,000
Optimizing PrEP uptake & adherence among stimulant using MSM			
<p>This study is to further develop and pilot test— in a two-arm randomized controlled trial (RCT)—a PrEP adherence intervention for stimulant-abusing MSM who are at risk for HIV infection against a standard of care condition. Informed by our formative research and addiction treatment experience with stimulant-abusing MSM, our interdisciplinary investigator team designed the “Pepped-on-PrEP” package—a counseling and problem-solving PrEP adherence intervention that addresses stimulant-abuse, and associated factors, as barriers to optimal PrEP adherence. This pilot-RCT will assess the feasibility/acceptability of the “Pepped-on-PrEP” package, as well as preliminary efficacy, laying the groundwork for the next step of intervention testing—a full-scale efficacy trial.</p>			

2016-2017	Role: PI (MPI: Biello)	Brown University, Watson Institute Collaboration Grants	\$10,000
Exploratory research to reduce health inequalities among HIV positive adolescents in Brazil			
<p>This is an exploratory research study to inform an intervention for HIV infected adolescents, ages 15 to 24, in Rio de Janeiro, Brazil. We will conduct formative research with community advisory board members, key informants, and HIV infected adolescents to inform the adaptation of a behavioral intervention for improving adherence to antiretroviral therapy among Brazilian youth. The resulting integrated counseling- and technology-based HIV medication adherence intervention package (called “Passos Positivos”) will address inequalities among diverse ethnicities, sexual and gender minorities, and class by addressing the particular structural (e.g., transportation to clinic visits, perceived healthcare discrimination) and individual-level (e.g., social support, psychosocial problems) barriers to adherence faced by adolescents in this setting. Passos Positivos will serve as the basis for a new NIH R application.</p>			

Current Funded Grants as Co-I

2010-2016	Role: Co-I PI: Heidi Crane	National Institute of Mental Health (U01AR057954-01)
Patient reported outcomes in routine clinical care of patients infected with HIV		
<p>This project's goal is to improve medical care processes and patient outcomes in clinical practice settings using routine collection of patient-reported outcomes (PROs) administered by computerized adaptive tests (CATs). This project will leverage extensive resources from the Centers for AIDS Research (CFAR) Network of Integrated Cohort Studies (CNICS); a consortium of 9 clinical research sites providing care for a well-characterized and demographically heterogeneous cohort of >20,000 HIV-infected individuals.</p>		

2012-2016	Role: Co-I PI: Ken Mayer	National Institute of Mental Health (R34MH095584-01)
Optimizing antiretroviral-based prevention by enhancing PrEP adherence in MSM		
<p>This research is to develop a nurse delivered behavioral counseling intervention to promote PrEP adherence among PrEP naïve MSM at risk for HIV infection. Once the intervention is developed through multiple forms of qualitative methods, an RCT pilot will be conducted. All participants will be provided with daily Truvada for the study period.</p>		
2011-2016	Role: Co-I PI: Conall O’Cleirigh	National Institute of Mental Health (R01MH095624-01)
HIV prevention and trauma treatment for MSM with childhood sexual abuse histories		
<p>This two-arm RCT is to test the efficacy of a psychosocial intervention that addresses intersecting epidemics among MSM: HIV and CSA. The experimental condition integrates sexual risk reduction counseling with Cognitive Processing Therapy for Sexual Risk (CPT-SR). CPT-SR has been specifically piloted on MSM with CSA histories and sexual risk to reduce interfering negative CSA-related thoughts about self, to more accurately appraise sexual risk, and to decrease avoidance of sexual safety considerations, and through rehearsals of sexual safety behaviors. The active time-matched comparison condition is risk reduction counseling plus supportive psychotherapy.</p>		

Previous Funded Grants as PI (Total Award Amount Provided)

2012-2015	Role: PI	Centers for Disease Control and Prevention / National Center for HIV, Viral Hepatitis, STDs, and TB Prevention (U01PS0053307-01)	\$1,500,000
Testing brief messages for Black & Latino MSM: emerging HIV prevention options			
<p>This 3-year CDC study includes Black and Latino MSM in three major US cities, including Chicago, Fort Lauderdale, and Kansas City, with variation in HIV serostatus and sexual risk behavior. Brief health messages of biomedical (e.g., PrEP, PEP, ARVs for treatment) and behavioral (e.g., condoms, serosorting) HIV prevention options will be created through extensive qualitative interviews, key informant interviews, and focus groups with these populations. These data will be used to refine the messages per participant and expert feedback, and ensure comprehension of information / health literacy, clarity, increase in knowledge, and potential to influence behaviors and attitudes. Through an iterative approach, the messages will be further refined and finalized. The final phase is testing the brief messages (delivered via text message) on health behavior change among 1500 Black and Latino MSM in the same three cities. The primary aim of this project is to assess changes in behaviors and attitudes, feasibility of message delivery, and acceptability of message content.</p>			

2011-2015	Role: PI	National Institute on Drug Abuse (R21DA03372-01)	\$464,589
Technology for HIV prevention among vulnerable men in India			
<p>Male sex workers (MSWs) are at particularly elevated risk for HIV infection and represent an important bridge population potentiating the HIV/AIDS epidemic in India. The first six months will be an intervention development and refinement phase. We will first conduct qualitative interviews (N = ~20 at both the Chennai and Mumbai study sites) and focus groups to inform the content of the intervention. We will then conduct an open pilot of the intervention with up to 10 MSWs (5 per study site) and assess initial feasibility and acceptability. We will then revise the intervention based on these data and work out any remaining methodological or intervention-development details. The next 18 months will be a RCT pilot of the intervention. One hundred (80 completers: 40 per study site) MSWs at risk for transmitting or acquiring HIV will be randomized to either 1) the mobile phone delivered counseling intervention and standard of care HIV/STI counseling and testing or 2) the control condition-standard of care HIV/STI counseling and testing alone.</p>			

2011-2015	Role: PI	National Institute on Drug Abuse (R34DA031028-01)	\$741,255
Behavioral activation and HIV risk reduction for MSM with crystal meth abuse			
<p>Problematic crystal methamphetamine (“meth”) use is a prevalent and treatment refractory problem in MSM, and highly associated with HIV sexual risk behavior. MSM who are HIV-uninfected and meet DSM-IV criteria for a diagnosis of meth (amphetamine) abuse/dependence will be randomized. The two arms include (1) “BAT-RR”, behavioral activation therapy and risk reduction counseling which lasts 10 sessions; and (2) the comparison condition, the equivalent risk reduction counseling only for 2 sessions. Participants will be followed for 6 months post-randomization. Main outcomes include sexual risk (primary) and meth use (secondary). Additional secondary outcomes include increases in pleasurable (but safe) activities, increases in HIV information, motivation re: sexual safety, and behavioral skills, decreases in depressive symptoms severity, and decreases in polysubstance use.</p>			
2011-2014	Role: PI (MPI: Mitty)	National Institute of Mental Health (R21MH095535-01)	\$451,806
Understanding PrEP implementation among club drug using MSM			
<p>The use of the antiretrovirals tenofovir emtricitabine as pre-exposure prophylaxis (PrEP) is a novel biomedical HIV prevention strategy to help decrease HIV spread. We propose to conduct qualitative interviews (phase 1) and a larger quantitative assessment (phase 2) among HIV-uninfected MSM who report recent club drug use and concurrent sexual risk (in the last 3 months) to gain a better understanding of the facilitators and barriers to PrEP implementation in this high risk group. All participants will be recruited from bars, nightclubs, and dance clubs in the Boston area that are known to attract gay and bisexual men and other MSM where club drug use is occurring.</p>			
2006-2010	Role: PI	Massachusetts Department of Public Health, Division of Infectious Diseases	\$750,000 (\$150,000/year)
HIV prevention among sexual and gender minorities at risk for HIV infection in MA			
<p>These projects changed yearly, and were reviewed competitively through a proposal process with MDPH. Prior studies include: 1) Monitoring MSM trends in incidence and prevalence of STDs through the development of an enhanced STD surveillance system; 2) Social and sexual networks, knowledge of STIs and HIV, perceptions of risk for disease, and barriers and motivators to accessing care from the perspective of Black MSM in the greater Boston area; and 3) Assessing how sexual environmental contexts impact sexual risk and HIV transmission among MSM in Massachusetts.</p>			

2008-2010	Role: PI	National Institute on Drug Abuse (R03DA023393-01)	\$150,700
Behavioral activation and HIV risk reduction for MSM with crystal meth abuse			
This pilot study of 20 individuals sought to develop a behavioral treatment to reduce sexual risk taking in MSM who abuse crystal methamphetamine and are at risk for HIV acquisition. The treatment incorporates state of the art behavioral risk reduction counseling approaches (e.g. information-motivation-behavioral skills building) with 10 sessions of behavioral activation to treat depression. This grant was the major preliminary data for my NIDA funded R34.			
2008-2010	Role: PI	Lenovo Hope Fund of Triangle Community Foundation	\$10,000
Reach 50 in 2008-2009 through Hope Web Design			
This application was a competitive RFP through the Lenovo Hope Fund. Reach 50 in 2008/2009 provided free, personalized web sites to 50 individuals who were diagnosed with cancer (no specific etiology/diagnosis) and who were 17 years of age or younger at the time that services were requested.			
2010-2012	Role: PI (MPI: Colby)	Harvard Catalyst Pilot Grant (UL1RR025758-01)	\$75,000
Sexual health needs of male sex workers in Ho Chi Minh City, Vietnam			
The aim was to conduct formative research to better understand risk and protective factors for HIV/STI transmission among MSW in Ho Chi Minh City. In the first phase, we conducted qualitative interviews with MSW to better understand local terminology, cultural factors, reasons for engaging in sex work, HIV risk dynamics, and barriers and facilitators of HIV testing/care. Second, we used the information gained through the qualitative interviews to design a larger, culturally responsive, quantitative assessment. These findings were used to develop a specific intervention designed to decrease HIV/STI risk behavior among MSW in Vietnam, which we are currently pilot testing among a sample of 100 MSW.			
2012-2014	Role: PI (MPI: Colby)	Centers for Disease Control and Prevention - Vietnam	\$475,000
Group based HIV prevention intervention for MSW in Ho Chi Minh City, Vietnam			
100 MSW from Ho Chi Minh City were enrolled in an open pilot trial of a group-based manualized HIV prevention intervention, focused on barriers to HIV risk reduction and problem solving/skills building. The intervention consisted of 4 group sessions facilitated by trained MSM peer health educators. Participants completed a behavioral assessment battery and HIV testing at baseline, 3-, and 6-months. The study assessed feasibility, acceptability, and reductions in sexual risk behavior.			

2011-2014	Role: PI	Harvard Center for AIDS Research	\$100,000
Improving antiretroviral medication adherence among HIV-infected youth			
<p>This study adapted the Life-Steps intervention designed by our group for HIV-infected adults to be responsive to the needs of HIV-infected adolescents. Following an intervention development phase involving qualitative interviews with 30 adolescents, we conducted an RCT pilot of the intervention among 30 HIV-infected adolescents. Participants ARV use was monitored via wisepill and they completed behavioral assessments at baseline, 3-, and 6-months. The study assessed feasibility, acceptability, and improved antiretroviral medication adherence.</p>			

2011-2014	Role: PI (MPI: Mitty)	Harvard Center for AIDS Research	\$100,000
Sustaining effects of contingency management on stimulant use in HIV-infected persons			
<p>We developed and implemented a combined contingency management (CM) and behavioral activation intervention aimed at HIV-infected individuals who are engaged in HIV care and currently dependent on crack, cocaine, or methamphetamine. Participant's (n = 10) acceptability and feasibility of intervention delivery were evaluated, as well as the impact of the combined intervention on reductions in stimulant use, changes in HIV plasma viral load, increases in CD4 cell count, and improvements in ARV medication adherence. Biobehavioral assessments were completed at baseline, 3-, and 6-months.</p>			

Previously Funded Grants as Co-I

2008-2014	Role: Co-I / Member of the Protocol Development Team (PI/Chair: Safren)	National Institutes of Health, HIV Prevention Trials Network: HPTN063
Preparing for international prevention trials involving HIV+ individuals in care settings		
<p>To conduct preparatory research needed to design a behavioral intervention to decrease sexual transmission risk behaviors in HIV-infected individuals in care and to determine whether a similar intervention structure can be used across various sexual risk groups (heterosexual men and women and MSM) and cultural settings. The sample was followed for 12 months and includes 900 HIV-infected men and women in Africa, Asia, and Latin America, who have reported recent (within 3 months) HIV sexual transmission risk behavior.</p>		

2007-2008	Role: Co-I (PI: Mayer)	National Institute of Mental Health (Supplement to R01MH68746-01)
Potential unintended consequences of PrEP use among MSM		
To understand the potential unintended consequences of the wider public discussion of the use of antiretrovirals for the prevention of HIV among HIV-uninfected men, we: (1) Recruited and screened a sample of 300 HIV-uninfected MSM using Respondent-Driven Sampling (RDS) and direct recruitment to obtain a diverse profile of the New England MSM who may be users or potential candidates for PrEP, and (2) explored in depth, using qualitative methods, the pre-existing knowledge, attitudes and behaviors of PrEP / PrEP use among 30 high-risk HIV- MSM.		
2007-2009	Role: Co-PI (PI: Mayer)	Gilead Sciences Inc.
Facilitators and barriers to routine HIV Testing among MSM in primary care		
This formative research project sought to gain a deeper understanding of the barriers and facilitators to implementing CDC guidelines on routine HIV testing in primary care settings. This was a foundation grant sponsored in full by Gilead Sciences.		
2008-2011	Role: Co-PI (PI: Mayer)	National Institute on Mental Health (R21MH085319-01)
Social/sexual networks of high risk married MSM in Mumbai		
The goals were to better understand HIV/STI transmission dynamics and how social and sexual network characteristics differ and contribute to increased risk among MSM who are married to women vs. MSM who are not, and to assess their interest in participating in future HIV/STI prevention interventions (n = 300).		
2008-2011	Role: Co-PI (PI: Safren)	National Institute on Mental Health (R21MH356025-01)
Addressing psychosocial needs and HIV risk in Indian MSM		
Specifically, this project aimed to develop an intervention that examined the impact of HIV stigma, discrimination, intimate partner violence and/or history of abuse or trauma on risk behavior and the rates of co-occurring mental illness, as well as drug or alcohol use among 100 MSM in Chennai, India. Such examination sought to develop and pilot test a multi-component intervention that addresses co-occurring disorders and other recognized substance use and their impact on increased sexual risk behavior. Biobehavioral assessments were completed at baseline, 3-, and 6-months.		

2010-2012	Role: Co-PI (PI: Kublin)	National Institutes of Health, HIV Vaccine Trials Network (HVTN)
HVTN behavioral and social science – Legacy 505 administrative supplement		
The goal of this project was to enhance and accelerate the recruitment of MSM into HIV vaccine clinical trials. This was accomplished through three main lines of work: (1) the development and implementation of an innovative HVTN 505 recruitment strategy targeting MSM to run concurrently with existing HVTN 505 recruitment efforts; (2) a survey of 1,800 MSM sampled from six HVTN 505 research locations assessing barriers and facilitators to enrolling in HIV vaccine clinical trials among this population; and (3) a comprehensive evaluation of the effectiveness of existing HVTN 505 recruitment strategies, of newly implemented recruitment strategies, and the efficacy of targeted population surveys to identify actionable barriers and facilitators to recruitment.		

Report of Teaching

*Teaching of Students in Courses**

2000 (Summer)	Instructor History of Mathematics	Johns Hopkins University, Center for Talented Youth	25 hours per week
2003 (Fall) 2004 (Fall)	Teaching Assistant EP 713: Introduction to Epidemiology	Boston University School of Public Health, Department of Epidemiology	8 hours per week
2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2015	Lead Instructor Behavioral Medicine and Adult Cognitive Behavioral Therapy Seminars Series	Harvard Medical School and Massachusetts General Hospital, Department of Psychiatry, Behavioral Medicine and Adult Cognitive Behavioral Therapy (CBT) Tracks	4 hours per week
2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2015	Lead Instructor EPI 220: Psychiatric Diagnosis in Clinic and Community Populations	Harvard School of Public Health, Department of Epidemiology	8 hours per week
2015-recurring	Lead Instructor PHP 2360: Designing and Evaluating Public Health Interventions	Brown University	10 hours per week
2016	Lead Instructor PHP 2090: Scientific Writing, Research Presentation, and Proposal Development	Brown University	10 hours per week

**For guest lectures in both undergraduate and graduate-level courses, please see “Invited Presentations / Guest Lectures” below.*

Other Research Supervisory and Training Responsibilities

2007-present	Research/Academic Supervision. At any given time I supervise and provide ongoing mentorship to 20 - 30 Research Associates/Project Managers, graduate students clinical interns, residents, fellows, and post-doctoral fellows in Epidemiology	20 hours per week
2008-2015	I previously provided ongoing statistical methods and NIH grant / manuscript writing mentorship to MGH professionals outside of and within the Behavioral Medicine Service, including Drs. Andres Bedoya, Christina Psaros, Jessica Magidson, Allison Labbe, Sannisha Dale, Mike Boroughs, Adam Gonzalez, and Aaron Blashill (Behavioral Medicine), Oliver Freudenreich (MGH First Episode And Early Psychosis Program). I have worked in recent years with Dr. Rochelle P. Walensky and others from her team (Division of Infectious Diseases) analyzing data and writing manuscripts from the USHER emergency room HIV testing trial	2 hours per week
2015-present	I presently provide NIH grant / scientific manuscript writing mentorship to faculty, post-doctoral fellows, and staff within the Institute for Community Health Promotion, Brown University	5 hours per week

Formally Supervised Trainees (Harvard and Brown)

**Denotes mentees that have been awarded federal research grants for which my role is a mentor/advisor*

<u>Duration</u>	<u>Advisee/Trainee</u>	<u>Mentorship Role</u>	<u>Current Position</u>
2007-present	Sari L. Reisner, ScD*	Primary advisor *Co-authored over 40 pubs; led to successful NIH R34, R03, PCORI grant, amfAR Grant, Department of State Grant; Primary mentor on Harvard CFAR Scholar grant	Assistant Professor of Pediatrics, HMS/Boston Children’s Hospital
2009-2012	Ugochukwu Amanyeiwe, PhD, MD	Mentor as part of the USAID Global Health Fellows Program and HSPH	Community Care and Prevention Advisor

2010-2015	Douglas Krakower, MD*	Research advisor *Co-authored 5 pubs; led to successful NIH K grant	Instructor in Medicine, HMS
2011-present	Katie Biello, PhD*	Primary advisor **Co-authored 12 pubs; led to successful NIH R21 grant; Primary mentor on Harvard CFAR Scholar grant	Prior Post-Doctoral Fellow Global HIV Epidemiology, HSPH; Research Scientist, HSPH, Epidemiology; Current Assistant Professor, Brown University
2011-2014	Nadia Abuelez, ScD*	Research mentorship **Co-authored 2 pubs under review Mentor on Harvard CFAR Scholar Award	Post-Doctoral Fellow, ID Epidemiology, HSPH
2011-present	Amaya Perez-Brumer, ScM*	Research mentorship **Co-authored 6 pubs under review	ScM graduate, HSPH; PhD student at Columbia University
2011-2013	Radha Rajasingham, MD	Research advisor **Co-authored 1 pub	Clinical Fellow, HMS/BIDMC
2011-2015	Charlene Flash, MD	Research advisor while a Fellow at HMS/BIDMC **Co-authored 2 pubs under review	Assistant Professor, Division of Infectious Disease, Baylor College of Medicine
2012-present	Catie Oldenburg, MPH*	Primary advisor **Co-authored 13 pubs Mentor on Harvard CFAR award	ScD graduate, ID Epidemiology, HSPH. Forthcoming Assistant Professor of Epidemiology, UCSF
2012-2014	Jason Park, ScM	Primary advisor **Co-authored 1 pub in press	ScM graduate, Epidemiology, HSPH; PhD student at Columbia University

2012-present	David Grelotti, MD, MPH*	Primary advisor **Co-authored 4 pubs; 3 other pubs under review; Primary mentor on Harvard CFAR Scholar grant; NIDA R21	Prior Post-Doctoral Fellow Psychiatric Epidemiology, HSPH and Behavioral Medicine, MGH; Current Assistant Professor of Psychiatry and Global Health, UCSD
2013-2015	Cheung Hoi Cheung “Doug”, MS	Primary advisor **Co-authored 1 pub (under review)	Prior ScM student, Epidemiology, HSPH
2013-2015	Angela Robertson, PhD, MPH*	Primary mentor **Co-authored 4 pubs, 3 more under review; Primary mentor on Harvard CFAR Scholar grant; Primary mentor on NIH K application	Prior Post-Doctoral Fellow Global HIV Epidemiology; Current Assistant Professor of Social and Behavioral Sciences, Boston University School of Public Health
2013-2015	Jowanna Malone*	Primary advisor Research Associate Graduate of Harvard College **Primary mentor of NIH Diversity Supplement Application to my R01	ScM student, Epidemiology, HSPH
2014-present	Blake Johnson	Primary advisor	ScM graduate, ID Epidemiology, HSPH; current medical student, UNC Chapel Hill
2014-2015	Rebecca Butler	Primary advisor	ScM student, Epidemiology, HSPH
2014-2015	Derek MacFadden, MD, ScM	Primary advisor	ScD student, Epidemiology, HSPH
2015-present	Akilah Dulin Keita, PhD	Senior faculty mentor	Assistant Professor of Behavioral & Social Health Sciences, Brown

2015-present	Amy Nunn, ScD, ScM	Senior faculty mentor	Associate Professor of Medicine and Behavioral & Social Health Sciences, Brown
2015	Lauren Brinkley- Rubenstein, PhD	Senior faculty mentor	Assistant Professor of Health Behavior, UNC Gillings School of Global Public Health
2015-present	Kristi Gamarel, PhD	Senior faculty mentor	Post-Doctoral fellow, Warren Alpert School of Medicine, Brown
2015-present	Philip Chan, MD	Research mentorship, manuscript collaboration for HIV prevention in Rhode Island	Assistant Professor of Medicine/Infectious Diseases Attending/Director of STI clinic/PrEP clinic, Lifespan Hospital/Brown
2015-present	Eulalia Karina Santamaria, MPH	Senior faculty mentor	PhD student, Behavioral & Social Health Sciences, Brown
2016-	Adedotun Ogunbajo	Primary academic advisor and research mentor	PhD student, Behavioral & Social Health Sciences, Brown
2016-	Arjee Restar	Primary academic advisor and research mentor	PhD student, Behavioral & Social Health Sciences, Brown
2016-	John Frank	Primary academic advisor and research mentor	Post-Doctoral fellow, Psychiatry & Human Behavior and Behavioral & Social Health Sciences, Brown

2016-	Jacob van den Berg, PhD	Research mentorship *Primary mentor on Providence/Boston CFAR grant	Assistant Professor of Medicine and Behavioral & Social Sciences, Brown; Program Director, Brown AIDS Program; Prevention Core Manager, Lifespan/Tufts/Brown CFAR
-------	----------------------------	---	--

Formally Supervised Trainees (on Mimiaga's Funded Grants at MGH/Harvard)

<u>Duration</u>	<u>Advisee/Trainee</u>	<u>Mentorship Role</u>	<u>Current Position</u>
2005-2006	Andrew Fair, ScM	Research Associate **Co-authored 1 pub	Project Manager NYC Department of Health
2005-2008	Ashley Tetu, MPH	Research Associate **Co-authored 3 pubs	PhD student in Social Sciences at the University of Washington
2006-2011	Carey Johnson, ScM	International Studies Project Manager **Co-authored 6 pubs	Senior Program Officer, Family Health International
2006-2007	Katherine Bonafide, MA	Research Associate **Co-authored 1 pub	PhD Candidate, Clinical Psychology, Syracuse University
2007-2008	Benjamin Colburn	Research mentorship	Medical Student Brown University
2008-2010	Sean Bland	Research Associate **Co-authored 4 pubs	Law Student, Georgetown University
2007-2011	Brandon Perkovich	Research mentorship while at Harvard College **Co-authored 3 pubs	Medical Student at UCSF
2009-2015	Wade Taylor, PhD	Research mentorship for Post- Doctoral Fellowship **Co-authored 2 pubs	Assistant Professor at Simons College, Boston

2009-present	Elizabeth F. Closson, MSc	Epidemiology Projects Manager **Co-authored 12 pubs	PhD student London School of Hygiene & Tropical Medicine
2010-2012	David Hankins	Research Associate	Medical Student at Dartmouth University
2010-present	Jackie White, MPH	Epidemiology Projects Manager **Co-authored 15 pubs	PhD student Yale University
2010-2011	Blake Rowley	Research Associate **Co-authored 3 pubs	Program Director, NASTAD
2010-2015	Steven Elsesser	Research Coordinator **Co-authored 1 pub	N/A
2010-2014	Nicholas Perry	Research Associate **Co-authored 3 pubs	PhD Student, clinical psychology, University of Utah
2010-2013	Michael Garber, MSW	Research Therapist **Co-authored 1 pub	N/A
2011-2013	Bianca Aponte	Research Associate	N/A
2011-2015	Emilia Dunham	Research Coordinator **Co-authored 3 pubs in press	MPP/MBA student at Brandies University
2011-present	Nelisa Rash	Research Associate	N/A
2011-2014	Janna Gordon	Research Associate **Co-authored 1 book chapter	PhD student in clinical psychology at UCSD/SDSU joint doctoral program
2011-2013	Johannes Wilson	Research Associate **Co-authored 2 pubs	N/A
2012-2013	Zupenda Davis	Black AIDS Institute Mentorship Program	PhD Student, Drexel University
2012-2013	Victoria Love	Research Associate	N/A
2012-2014	Vish Kothery	Research Associate **Co-authored 2 pubs	Medical Student at Vanderbilt University
2013-2014	Jason Mattie	Research Associate **Co-authored 1 pub	N/A
2013-2015	Kirk Fergus	Research Associate **Co-authored 2 pubs Graduate of Harvard College	Medical Student at UCSF

2013-present	Dana Pardee	Senior Research Associate	N/A
2014-2015	Eric Lamy	Research Associate	N/A
2015-2016	Joshua Prenner	Research Associate **Published papers	Medical Student at UCSF

Invited Presentations / Guest Lectures

Local – No Presentations Below Were Sponsored by Outside Entities (Since 2008)

2008	Harvard School of Public Health, Mental Health Caucus. “Mental health issues among men who have sex with men”
2008	Massachusetts General Hospital, Department of Psychiatry. Behavioral Medicine seminar. “Intervention development for MSM with crystal meth abuse who are at risk for HIV infection”

- 2012 Centers for Disease Control and Prevention headquarters, Ho Chi Minh City, Vietnam. “Interventions for HIV prevention among male sex workers in Vietnam”
- 2012 National Institute for Research on Tuberculosis (NIRT/ICMR), Chennai, India. “Model of Health and Health Care Delivery for at Risk Populations”
- 2013 Treat ASIA, Bangkok, Thailand. “Interventions for methamphetamine dependence and other substance use in HIV uninfected and infected MSM”
- 2013 Treat ASIA, Bangkok, Thailand. “Holistic HIV prevention interventions grounded in the social realities of young transgender women”
- 2013 Treat ASIA, Bangkok, Thailand. “Fostering resilience and addressing psychosocial needs and HIV risk among MSM in resource-limited settings”
- 2013 University of Chiang Mai, Thailand. “Analyzing qualitative data to design a secondary HIV prevention intervention for HIV-infected”
- 2013 UCLA and IMPACTA, Lima, Peru. “HIV prevention interventions for high risk groups in resource limited settings”
- 2013 CDC and HAIVN, Ho Chi Minh City, Vietnam. “A manualized, group-based HIV prevention intervention for at risk MSM in HCMC, Vietnam”
- 2013 CDC and HAIVN, Ho Chi Minh City, Vietnam. “Anatomy of a manuscript: How to write a manuscript in 20 sentences”

- 2014 National Institute for Research on Tuberculosis (NIRT), Indian Council of Medical Research. "Analysis of qualitative data using NVIVO and ATLAS.ti software"
- 2014 Thai Red Cross, Bangkok, Thailand. "Preparing for PrEP: The current state of knowledge about oral and topical chemoprophylaxis"
- 2014 UCLA / IMPACTA, Lima, Peru. "Preexposure antiretroviral prophylaxis (PrEP) attitudes and perceptions among substance using, partnered MSM at risk for HIV infection"
- 2014 Universidad De Lima, Lima, Peru. "The causative effect of syndemic production on HIV incidence and risk behavior in a large cohort of sexually active men who have sex with men"
- 2014 University of Mumbai sponsored conference at The Humsafar Trust, Mumbai, India. "Epidemiological methods in behavioral, social and biomedical research"
- 2015 AIDSIMPACT 12th international conference in Amsterdam, Netherlands. "Multiple syndemic psychosocial factors are associated with reduced engagement in HIV care among a multinational, online sample of HIV-infected MSM in Latin America"
- 2015 National Institute for Research on Tuberculosis (NIRT), Indian Council of Medical Research, Chennai, India. Dissemination workshop: "HIV prevention through mobile phone technology among male sex workers in India"
- 2016 Ontario HIV Treatment Network (OHTN) conference, "HIV endgame: Stopping the syndemics that drive HIV," Toronto, Canada. (Plenary speaker)
- 2016 Global Forum on MSM & HIV; session on Tech Sex: The Role of Digital Technologies in Relation to the HIV Response, Durban, South Africa. "A pilot randomized controlled trial of a mobile phone delivered counseling intervention to reduce HIV risk among male sex workers in Chennai, India"

Symposia Presentations at Scientific Conferences (limited to prior 8 years)

Note: total conference presentations / posters (>250) not listed

- | | | |
|------|---|--|
| 2009 | The Effectiveness of Respondent-Driven Sampling to Recruit Minority and Hard-to-Reach MSM for STD/HIV Behavioral Surveillance | Centers for Disease Control STD Prevention Conference, Chicago, IL |
| 2009 | Psychosocial and behavioral predictors of partner notification for STD and HIV exposure among men who have sex with men (MSM) | Centers for Disease Control STD Prevention Conference, Chicago, IL |

2009	Psychosocial and behavioral correlates of STD and HIV risk behavior among Massachusetts men who have sex with men (MSM) with Posttraumatic stress disorder	Centers for Disease Control STD Prevention Conference, Chicago, IL
2009	Health care access and sexually transmitted disease screening frequency among at risk Massachusetts men who have sex with men (MSM)	Centers for Disease Control STD Prevention Conference, Chicago, IL
2009	Childhood sexual abuse and underage male homosexual contact is highly associate with HIV risk taking behavior and infection	Society of Behavioral Medicine Conference, San Diego, CA
2009	Street workers and Internet escorts: Contextual and psychosocial factors surrounding HIV risk behavior among men who engage in sex work with other men	Society of Behavioral Medicine, Montreal, Quebec, Canada
2009	HIV prevention beyond anal sex: Predicting HIV sexual risk reduction practices in a sample of Massachusetts MSM	Society of Behavioral Medicine, Montreal, Quebec, Canada
2009	Predictors of identifying as a “barebacker” among high risk New England HIV seronegative MSM	Society of Behavioral Medicine, Montreal, Quebec, Canada
2009	Tenofovir DF/Emtricitabine/Raltegravir (TDF/FTC/RAL) is Safe and Well-Tolerated for Non-Occupational Post-Exposure Prophylaxis (NPEP)	AIDS Society Conference on HIV Pathogenesis, Treatment and Prevention, Cape Town, South Africa
2010	Depressive symptoms and HIV/STD risk among Massachusetts MSM accessing Department of Health mobile van services	CDC National HIV Prevention Conference, Atlanta, GA
2010	Community providers’ perceptions and experiences with MSM clients attending sex parties in Massachusetts: Implications for HIV prevention	CDC National HIV Prevention Conference, Atlanta, GA

2010	Frequency and barriers to routine HIV testing among Massachusetts community health centers	CDC National HIV Prevention Conference, Atlanta, GA
2010	Sexual mixing patterns and partner characteristics of Black MSM at risk for HIV in Massachusetts	CDC National HIV Prevention Conference, Atlanta, GA
2010	HIV sexual risk behavior and problematic alcohol use among Black MSM in Massachusetts	CDC National HIV Prevention Conference, Atlanta, GA
2010	Clinically significant depressive symptoms as a risk factor for HIV among Black MSM in Massachusetts	CDC National HIV Prevention Conference, Atlanta, GA
2010	Routine HIV testing in Massachusetts community health centers: Perceived barriers and strategies to improve screening rates	American Public Health Association annual conference, Philadelphia, PA
2010	Mediators of the relationship between childhood sexual abuse and subsequent HIV infection among MSM in the EXPLORE study	American Public Health Association annual conference, Philadelphia, PA
2010	HIV risk behavior among Black men who have sex with transgender partners, Boston, Massachusetts	American Public Health Association annual conference, Philadelphia, PA
2010	What substances are HIV-infected MSM using that are associated with transmission risk behavior?	American Public Health Association annual conference, Philadelphia, PA
2010	History of incarceration and HIV/STD risk among Black men who have sex with men in Massachusetts	CDC National STD Prevention Conference, Atlanta, GA
2010	Increased detection and geographic spread of gonorrhea, chlamydia and syphilis in Boston area men who have sex with men, 1997-2008	CDC National STD Prevention Conference, Atlanta, GA
2010	Health system and personal barriers resulting in decreased utilization of STD testing services among at risk Black men who have sex with men in Massachusetts	CDC National STD Prevention Conference, Atlanta, GA

2011	An open phase pilot of behavioral activation therapy and risk reduction counseling for MSM with crystal methamphetamine abuse at risk for HIV infection	Society of Behavioral Medicine, Seattle, WA
2011	Baseline findings from Project IMPACT: HIV-uninfected men who have sex with men presenting for treatment of crystal methamphetamine abuse are at high-risk for HIV infection	Society of Behavioral Medicine, Seattle, WA
2011	Predictors of HIV transmission risk behavior and seroconversion among Latino men who have sex with men in Project EXPLORE	Society of Behavioral Medicine, Seattle, WA
2011	Comparison of CBT to relaxation with educational support for residual ADHD in adults: initial outcome of a randomized controlled trial	World Congress of Behavioral and Cognitive Therapy, Boston, MA
2011	Interest of at risk Boston men who have sex with men in oral and topical chemoprophylaxis	Microbicide Trials Network, Cape Town, South Africa
2011	Gender-specific pathways from family conflict in childhood to adolescent alcohol or marijuana use disorders	Research Society on Alcoholism Scientific Meeting, San Antonio, TX
2011	“I don’t tell anybody that I am married”: Understanding the vulnerabilities and associated HIV risks of Indian men having sex with men who are married to women	International AIDS Society Meeting, Vienna, Austria
2011	Cruising for sex: Partner meeting venue and HIV risk behavior among Black men who have sex with men (MSM) in Massachusetts	American Public Health Association annual conference, Denver, CO
2011	Sex parties for urban gay men: An emerging culture and risk environment for HIV that merits immediate attention	American Public Health Association annual conference, Denver, CO

2011	Straight-talk about queer transmen: A qualitative study of the sexual health needs of New England transgender men who have sex with men	American Public Health Association annual conference, Denver, CO
2012	Patient-provider communication around sexual behaviors: Potential barrier to PrEP among MSM engaged in on-line networking	CDC National HIV Prevention Conference, Atlanta, GA
2012	Sex frequency and planning behaviors among MSM engaged in on-line networking: Implications for PrEP dosing	CDC National HIV Prevention Conference, Atlanta, GA
2012	High prevalence of depression and loneliness exacerbate HIV risk among urban MSM attending sex parties	CDC National HIV Prevention Conference, Atlanta, GA
2012	Engagement of Massachusetts physicians in HIV prevention: Results of an on-line survey	CDC National HIV Prevention Conference, Atlanta, GA
2012	Sex party attendance and HIV risk among men who have sex with men in Massachusetts: Results from Project PARTY eligibility screening	CDC National HIV Prevention Conference, Atlanta, GA
2012	Prevalence and incidence of sexually transmitted infections among a community recruited sample of men who have sex with men (MSM) in Chennai, India	International Union Against Sexually Transmitted Infections, New Dehli, India
2012	The evolution of Massachusetts physician attitudes, knowledge and experience with antiretroviral chemoprophylaxis before and after the release of iPrex data	IDSA meeting, Boston, MA
2013	Qualitative comparison of barriers to antiretroviral medication adherence among perinatally and behaviorally HIV-infected youth	Annual Conference on HIV Treatment and Prevention Adherence, Miami, FL

2013	Preference for Daily versus Intermittent PrEP Dosing among Substance-enhancing Pre-exposure Prophylaxis in Men who have Sex with Men: Determining Optimal Content for a PrEP Adherence Package	International Conference on HIV Treatment and Prevention Adherence, Miami, FL
2013	Qualitative Comparison of Disclosure among Perinatally and Behaviorally HIV-infected Adolescents	International Conference on HIV Treatment and Prevention Adherence, Miami, FL
2013	Enhancing Pre-Exposure Prophylaxis Adherence in Men who have Sex	International Conference on HIV Treatment and Prevention Adherence, Miami, FL
2013	Preexposure antiretroviral prophylaxis (PrEP) attitudes and perceptions among substance using, partnered MSM at risk for HIV infection	Gay Men's Sexual Health Conference: A Focus on Couples, San Juan, Puerto Rico
2013	Disparities in non-suicidal self-injury by sexual orientation identity: Results from the 2007 Massachusetts Youth Risk Behavior Survey (MYRBS)	American Public Health Association Conference, San Francisco, CA
2013	Racial Preferences and Sexual Partnering: A Content Analysis of the Online Profiles of Men Seeking Sex with Men on the Internet	American Public Health Association Conference, San Francisco, CA
2013	A Population Based Study of Sexual Risk Behaviors Among Sexually Active Adolescent Females: A Comparison of Behaviorally Bisexual to Behaviorally Heterosexual High School Students in Massachusetts	American Public Health Association Conference, San Francisco, CA
2013	The Association between Race-Based Preferences and Desired Sexual Practices among Men Seeking Men for Sex on the Internet: Implications for Sexual Health	American Public Health Association Conference, San Francisco, CA
2013	Alcohol use differences by behaviorally versus perinatally HIV-infected adolescents in care	American Public Health Association Conference, San Francisco, CA

2013	Negative affect moderates the association between at-risk sexual behaviors and substance use during sex: Findings from a large cohort study of HIV-infected males engaged in primary care in the US	Society of Behavioral Medicine, New Orleans, LA
2013	Patients in routine HIV clinical care at-risk for potentially transmitting HIV in the “test-and-treat” era of HIV prevention	International AIDS Society Conference, Washington, DC
2013	Anticipated risk compensation with pre-exposure prophylaxis use among North American men who have sex with men using an internet social network	International AIDS Society Conference, Washington, DC
2014	Group-delivered HIV prevention with young transgender women: Strategies for community engagement, delivery, and dissemination	Trans Health Conference, Philadelphia, PA
2014	Pill or gel: Preferences of at risk Canadian and American men who have sex with men recruited via a social network site regarding oral or topical chemoprophylaxis	International Microbicides Conference, Sydney, Australia
2014	The causative effect of syndemic production on HIV incidence and risk behavior in a large cohort of sexually active men who have sex with men	Sexual Health Conference, San Juan, Puerto Rico
2015	Testing HIV prevention messages about antiretroviral pre-exposure prophylaxis (PrEP) and condom effectiveness for anal sex among HIV uninfected and infected African American/black and Latino MSM	CDC National HIV Prevention Conference, Atlanta, GA
2015	Racial/ethnic and other demographic differences in responses to prevention messages on benefits of antiretrovirals for HIV treatment among African American/black and Latino MSM	CDC National HIV Prevention Conference, Atlanta, GA

2015	Effects of brief messaging about undiagnosed infections detected through HIV testing among African American/black and Latino MSM	CDC National HIV Prevention Conference, Atlanta, GA
2015	Effects of brief messaging about "Negotiated Safety" with primary partners for reducing HIV and other STI risk among black and Latino MSM	CDC National HIV Prevention Conference, Atlanta, GA
2015	Qualitative research findings in developing brief health communication messages of emerging HIV prevention options that represent the opinions of African American/black and Latino MSM	CDC National HIV Prevention Conference, Atlanta, GA
2016	Antiretroviral therapy and HIV acquisition in a South African population-based cohort	2016 Conference on Retroviruses and Opportunistic Infections, Boston, MA
2016	Developing a sexual risk reduction intervention using mobile phone technology for male sex workers in Chennai, India: Project Talk	Joint World Conference on Social Work, Education and Social Development 2016, Seoul, Korea
2016	Immediate HIV treatment prevents new infections: Causal evidence on the real-world impact of immediate versus deferred ART in rural South Africa	21st International AIDS Conference, Durban, South Africa
2016	General medication adherence, health insurance type, and recent condomless sex: Implications for PrEP implementation among HIV-infected Black/African American and Latino MSM in three U.S. cities	Sigma Xi Symposium/Celebration of Creative Inquiry, Saint Peter, MN
2016	Mobile phone and internet sex seeking: Associations with recent STIs among African American/Black and Latino MSM	CDC National STD Prevention Conference, Atlanta, GA

Narrative Report

Overview. I am a Tenured, Full Professor of Epidemiology, Behavioral & Social Health Sciences, and Psychiatry & Human Behavior (School of Public Health and Alpert Medical School), as well as Director of the Institute for Community Health Promotion (IChP) at Brown University. The Institute is comprised of Faculty, Post-Doctoral Fellows, Graduate & Undergraduate Students, Core Research Staff (e.g., RAs, Project Managers), and 3 fulltime Administrative Personnel (i.e., grants management, finance, and Institute operations). We have collective expertise in intervention development and testing, clinical trials, advanced epi methods and biostatistics, qualitative methods and analysis, and program evaluation.

Past and Current Extramural Funding and Scientific Review. To date, I have been the principal investigator of 24 extramural funded research grants, including ten NIH R-level grants (3 R01s, 4 R21s, 2 R34s, and 1 R03), 1 NIH competitive supplement, 2 large-scale CDC U01 research grants, 2 Harvard Center for AIDS Research grants, 1 Harvard Catalyst grant, 1 Ragon Institute grant, 1 Brown Seed Grant, 1 Watson Institute Pilot Grant and 1 Lenovo Hope Fund Scholars Grant. My extramural research funding as PI has totaled nearly 20 million dollars. In total, I have been a Co-I or primary-/Co-mentor on over 37 federally- and foundation-funded research grants.

Notably, I am currently a standing member of the NIH Behavioral and Social Consequences of HIV/AIDS (BSCH) study section that reviews grants related to behavioral and social science aspects of HIV prevention research (8-year term, until 2019).

Global Health Research. I currently have international research studies across multiple continents focused on HIV prevention among various populations at risk of acquiring or transmitting HIV. Current countries where I am engaged in health research include: South Africa (Durban/Umlazi), Zambia (Lusaka), Thailand (Chiang Mai and Bangkok), Vietnam (Ho Chi Minh City), India (Mumbai, Chennai and Pune), Brazil (Rio de Janeiro), Ecuador (Quito), Peru (Lima), and collaborating on research projects with investigators at U Penn in Ukraine (Kiev) and Russia (St. Petersburg).

Scientific journal and Other Scholarly Publications. I have over 220 peer-reviewed, original research publications, book chapters, and reviews/commentaries. Many of my publications are in high-impact journals, including JAMA, AJPH, Drug and Alcohol Dependence, Archives of Sexual Behavior, Journal of Urban Health, Lancet, AIDS and Behavior, JAIDS, AIDS, PLOS ONE, etc. Over 1/3 of my research publications are as first author, 1/3 are as senior author, and >90 publications that resulted from my direct mentorship of individuals within the Harvard or Brown systems for which these mentees are first author on these publications.

Teaching. I am actively involved with teaching ongoing courses at Brown University, including "PHP 2360: Designing and Evaluating Public Health Interventions," an advanced graduate-level course that provides practical training in intervention development and testing (from formative, to open pilot, to pilot RCT, and ultimately, to efficacy and effectiveness trials), as well as, "PHP 2090: Scientific Writing, Research Presentation, and Proposal Development," an advanced graduate- and post-graduate-level course to enhance scientific writing skills, including the preparation of scientific journal manuscripts and federal grants (i.e., NIH and CDC grants).

Over the past 8 years, I have been teaching seminars in the Behavioral Medicine and Adult Cognitive Behavioral Therapy (CBT) tracks in the Department of Psychiatry at HMS/MGH. I was also actively involved with teaching at HSPH in the Department of Epidemiology for the past 8 years (2007-2015). My primary course, EPI 220, was an applied, mid-level course in the psychiatric epidemiology track that focuses on interview schedules designed to diagnose psychiatric disorders in clinical settings, household surveys, and behavioral research. The course provides practical experience in differential diagnosis, in the administration of different kinds of interview schedules, and in analysis of responses.
