

Project HOPE - Program Monitoring and Evaluation Internship

Summary of Project

The proposed project will involve analyzing project data and preparing a manuscript that could be submitted to a peer review journal. Project HOPE implements a number of projects in the developing world which generate quite a bit of data. HOPE is interested in increasing publications based on our data collection. The topics for these publications will be determined later in the year and will depend on available data. However, we anticipate that publications will use data from HIV projects in Africa.

Intern's Role in the Project

- The intern will take the lead in analyzing data and preparing the manuscript. They will receive substantial support from Dr. Esther Kaggwa. Specific tasks will include the following:
 - Analyzing data using STATA or another software with which the intern is familiar. This analysis might include multivariate analysis (depending on the subject)
 - Literature review - The intern will conduct literature review and prepare the back ground section of the manuscript
 - Preparing substantial components of the manuscript. Depending on their skills, Dr. Kaggwa will help with sections of the manuscript that the intern does not feel comfortable preparing
 - Working with Dr. Kaggwa and other Project HOPE staff to select the journal.

Deliverables for the intern to complete will include

- Clean data set
- Data analysis output file/log
- A summary of the literature to be included in the back ground section of the manuscript
- A revised publishable article. The intern will be a co-author on the article. Order of authorship will be discussed based on each person's contribution.

Start & End Date

Exact start and end summer dates will be set in coordination with the program and student. The time commitment will fall between an 8-10 week commitment at 30-35 hours per week.

Location

Bethesda, MD with easy access to Washington, DC.

Funding

The Center for Human Rights and Humanitarian Studies at Brown University will provide a \$5,000 fellowship award to the selected candidate to cover travel and living expenses

Eligibility

Open to all 1st, 2nd, and 3rd year Brown Undergraduate Students

To Apply

Submit a Cover Letter and Resume in a single consolidated .pdf file to seth_stulen@brown.edu

Application Deadline

Interested candidates must submit applications by no later than December 20, 2019
